#### VINEYARDS

|                    |                                                                                                                                                                                                                                                                                                                                             |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Appellation</b> | Napa Valley: 75% Oak Knoll, 14% Mount Veeder, 6% Knights Valley, and 5% Rockpile                                                                                                                                                                                                                                                            |
| <b>Soil</b>        | The geology and soils of Napa Valley are complex and primarily comprised of broken down or decomposed rock that has been carried downhill from the eastern Vaca range and the western Mayacamas range into the base of the valley, where they ultimately intermingle with the silt, clay and gravel deposits of the Napa River flood plain. |

#### VINTAGE

|                             |                                                                                                                                                                                                                                                                                                          |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Growing Season</b>       | The 2020 growing season began with rainfall well below average, and colder nighttime temperatures delayed budbreak. Weather warmed up after bloom, with temperatures slightly higher than normal through the rest of the season. Tiny yields increased the rate of harvest in August and into September. |
| <b>Harvest Dates   Brix</b> | September 14 – September 24   25.4° average                                                                                                                                                                                                                                                              |

#### WINEMAKING

|                             |                                                                                                                                                                   |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Varietal Composition</b> | 86% Cabernet Sauvignon, 14% Merlot                                                                                                                                |
| <b>Fermentation</b>         | Native-yeast and malolactic fermentations                                                                                                                         |
| <b>Aging</b>                | Aging sur lies with quarterly bâtonnage coats the tannins and integrates the wood. The 2020 vintage matured 29 months in 45% new French oak barrels. Non-filtered |
| <b>Release Date</b>         | Nov 2024                                                                                                                                                          |

*Our sixteenth vintage of this appellation Cabernet is blended from a combination of hillside and valley floor vineyards. Our style combines the harmony produced by traditional Bordelaise winemaking techniques with the structure gained from California's climate. — David Ramey*
